For the past six weeks the officers of the Northern Light Mining company have been hard at work in the arduous task of building a mill on its magnificent Lion Hill property-that In, on paper; and during this period almost daily meetings have been held in the company's office in the Me Cornick block, and they have been w ited upon by nearly every architect and machinery dealer in this

At last, however, after making a and that the extent of the ore bodies and after making a close inspection of every examide mill in Utah, the company has fully decided upon the manner of mill which it will build and yesterday the contracts were let for the same, the Silver Brothers, of this city, being awarded the contract for the machinery plant; while White & Ford, also of this city, secured the contract for the contract for the contract for the contract for the machinery plant; while White & Ford, also of this city, secured the contract for the mill building; and The careful examination of half a dezen

tion of the mili building; and The
Herald is assured that when completibed, which is to be within seventy-five
days from date, and at an estimated
cost of about \$22,000, the Northern
Light mill will be the best constructed, the best equipped and the most
perfect mill to be found in this or any
other country. bed, which is to be within seventy-five

chief country.

The plant is to have a capacity of 269 tons daily, and its machinery installation will comprise one sixty-horse-power Coriles engine; two seventy-horse-power billers; one Blake ore crusher; two setts of rolls, one of which is a Wall, the other a Cornish; besides other mechanical inventions and appliances necessary for the construction of a first-class cyanide mill.

Six cast-iron tanks will be put in at first, with a total capacity of fifty tons of ore daily. The plans, however, will for twenty-four tanks and

first, with a total capacity of fifty tons of ore daily. The plans, however, call for twenty-four tanks, and the eighteen will be added soon after the mill is in successful operation.

The mill is in successful operation.

The mill building will be of capacious proportions, and will be built so that the ore will be moved by gravity from the mouth of the tunnel of the mile to the ore bins and then on to the iniling dumps, with the exception of a fifteen foot elevator, which will raise the pulp from the last sert of rolls into the bins above.

The ore chute and blins, as shown in the accompanying illustration, towers above the main building and is so constructed as to give ample storage room for a large amount of ore, which is fed through a chute into the Blake erusher below; from where it passes on to the rolls and is then elevated into the pulp bins. From the bins the pulp is drawn off into cars and is dumped into the tanks, when, after the covaride routine has dissolved all or selection of the mill will be feather. The erection of the mill will be watched with a great deal of insert elevations, it is believed that at an early day the Northern Light will find a place on the list as a regular dividend payer.

The company is the owner of what is know as Box spring, which is located near the mine. It is believed that this will find a place on the list as a regular dividend payer.

Millar mine, at the head of American
Fork canyon, informs The Herald that
he learned while there that a rich gold
discovery had been made in the canyon, about five miles below the Millar
mine, and that at the present time
there was a stampede of miners and
prospectors to the new gold finds, over
which considerable excitement had already been arcused.

Mr. Crismon states that he did not
learn the particulars of the discovery
other than that the deposit was a large
and fich one, and that the Groesbeek
boys of Springville were among the
lucky ones to be in on the new Golconda

At the Millar mine, according to Mr.
Crismon, five men are employed in the

PARK CITY. Oct. 1.—At the 1.500-foot drain tunnel of the Ontario mine a fissure has been struck from which a large supply of water is obtained. The drift at the 1.500-foot level is showing very well, and other parts looking well as usual.

The new machinery at the West-Daly is working smoothly, and the mine is still prospecting better as developments go forward.

Ore and Bullion.

The car load of Utah ore, the receipt of which was mentioned yesterday in these columns, netted the company \$1.2%. make any change in quotations.
Anchor was more in demand, at somewhat advanced figures. No special news is coming from the properties, however, Bullion-Beck did considerable in quotacions. Hon. Richard Mackintosh is expected home tomorrow from his visit to Eureka, Nevada, where he has extensive mining

The West Cable group at Eureka has been surveyed for patent, and soon the title to this valuable property will be vested in the company.

W. H. Wesi, manager of the Censtellation Mining company, will go up to Park City this morning for the purpose of inspecting the mine.

The Natural Gas company has levied an assessment of two cents a share on its capital stock, payable immediately. The assessment will be delinquent on October 31.

Judge Walker of Mercur was in the city yesterday on important legal business. The judge says that "Mercur is all right," and that the camp is gaining ground daily.

ground daily.

Broker Ed Sheets has returned from Colorado points, where he has been on his wedding tour. Mr. Sheets is now ready for business and can be found at his old haunts once again.

Ike Hazelgrove is devoting considerable time in the development of the Little Joker mine, at the head of Bear guich, in Bingham. The property is locking well, and Ike believes that it will yet develop into a heavy producer.

The last shipment of Ajax ore, comprising three car lots, carried copper values of over 37 per cent., and the shipment netted the company over \$4.80. The mine is showing up immense ore bodies and the future outlook for the property is most encouraging. the shipment of high grade ores. Geyser is working away steadily, but investors generally do not care to take
the stock up pending the result of the
law suits involving part of the company's properties. Horn Silver is making a good record, but the stock continues slow. Lucky Bill has levied
another assessment for the purpose of
continuing development work.
Altrough buying was even heavier

encouraging.

It was reported on the streets yesterday that some very promising deposits of
mineral had been discovered in the mountains east of Santaquin. The ere is a
lead carbonate and carries values of from
12 to 30 courses silver, 80 per cent lead
and \$2 in gold to the ton. Some people at Needles, Arizona, are looking into a proposition to put a big pumping plant on the Colorado river, near old Liverpool landing, to pump water across the range to work the big placer grounds on the eastern slope. There are said to be rich deposits in the Chimehuevas mountains.

vas mountains.

George Moyer, Judge Judd, Felix Stark and other interested parties will go out to Ophir the first of the week for the purpose of making arrangements for a patent survey of the Stewart load. The Stewart is an old producer, and at one time \$16.00 in high grade ore was taken from this property from a pocket at the grass roots.

Coloral L. E. Woodman, one of the was no material change in the quotations on Mercur, only a limited amount of the stock is being offered and an advance is almost sure to come with the declaration of the October dividend. The company's September record of production was the greatest in its history and the showing at the mines concontinues to be all that could be desired. Ontario's September dividend was pad in New York yesterday. The stock was inactive, with quotations unchanged. Overland is reported to be looking even better than was the case a few weeks ago. The company has not yet ordered its mill.

grass roots.

Colonel J. F. Woodman, one of the heavy stockhoiders in the Centennial-Eureka Mining company, accompanied by two Chicago stockhoiders, paid a visit to the mine this week. The colonel reports that the mine is in a most promising condition, and that the eastern shareholders were much pleased with the showing made in this magnificent property.

erty.

S. S. Gates, the well known mining man who has spent a good many years in mining in Old Mexico, left last night for the land of the Montezumas, accompanied by his family. Mr. Gates will spend the immediate future in looking after his mining interests near El Paso and Chihuahun. Mr. Gates has many friends here who are sorry to have him leave this country.

Broker Felix Stark will leave this morn.

leave this country.

Broker Felix Stark will leave this morning for the William J. Bryan mine at Mill F in Big Cottonwood. The showing in this mine is still very encouraging. The veh matter is all of three and a half wide, in which there is a pay streak of four and a half inches, which runs over 500 ounces in silver to the ton. This ore is being sacked and a carload shipment will probably be made before election.

Government officials, according to the Butte Miner, are treating with the Fort Hall Indians of Idaho, Ulntahs of Utah, Agrlemas of Washington and the Crows, Cheyennes and Flatheads of Montann, to agree on a certain pertion of the Fort Hall reservation, south of Ross Fork and surrounding Pocatello, to be cut off and placed on public sale. This strip comprises a large area of mineral lands.

PLUMBING INSPECTORS.

TWO OF THEM, EACH CLAIMING TO BE THE LEGAL INCUMBERT.

Mr. Higham Refuses to Acknowledge the Authority of the Health Commissioner to Discharge Him-Councilman Stewart Backing Up Higham Against Miles.

The city now has two plumbing in-

Mr. Higham, who has been serving in the capacity of plumbing inspector some time past, refused to recognize the communication from Health Commission-Assessment work will soon be commenced on the properties of the South Fork Consolidated Mining company, which are located in the south fork of Big Cottonwood. Mr. Higham refused to turn over the keys, as well as any books he might

to assume the duties of his new office, Mr. Higham refused to turn over the keys, as well as any books he might have in his possession.

Several parties came in to secure permits for plumbing work, and then there was some fun. Mr. Higham said he alone had the authority to issue such permits, while Mr. Miles was equally certain that he was the only proper individual through which such a transaction could be mane, the was the only proper individual through which such a transaction could be made the was that the parties wanting permits decided to wait.

And now the matter will be brought before the city council, Mr. Higham it is understood refused to surrender the cface on advice of Councilman Stewart, the chairman of the committee on sanitary rules and regulations, who thinks he ought to control the patronage in the chairman of the committee on sanitary rules and regulations, who thinks he ought to control the patronage in the health department. Just what grounds there are for Mr. Higham or his manager, Stewart, to think that the former has a mortgage on the office, does not appear. As a matter of fact, there is no such city officer as plumbing inspector. Mr. Higham was appointed by City Engineer Kelsey, while the plumbing inspector was connected with the engineering department. Then it was transferred to the health department, and Mr. Higham as well as the new appointee enjoys the distinction of being called plumbing inspector simply because he looks after that branch of the department.

Councilman Stewart was on the warpath yesterday. He has been canvassing very carnestly among the members of the city council appealing to them to stand by his man, Higham. He boasted, too, that he had secured the pledges of eight members and that there is going to be some fun next Thessiay night. But Stewart is enough cause for list dismissal. The health department will fail. Mr. Higham may be a very good man, and there seems to be no complaint against him, but the fact that he is upheld by Stewart is enough case for list dismis
